Transparent bar list posted daily

Cost effective access to physical platinum

GraniteShares Platinum Trust

TRUST CHARACTERISTICS as of 12/31/2018

PRODUCT TICKER	PLTM
SPONSOR FEE	0.50%
INCEPTION DATE	1/22/2018
BENCHMARK	PLATINUM
CUSIP	38748T103
EXCHANGE	NYSE Arca
IOPV TICKER	PLTMIV
REPLICATION	PHYSICAL
VAULT LOCATION	LONDON
CUSTODIAN	ICBC STANDARD BANK PLC
VAULT INSPECTOR	BUREAU VERITAS
VAULT INSPECTION FREQUENCY	TWICE ANNUALLY
TRUSTEE	BNY MELLON

PERFORMANCE

As of 12/31/2018

	1 month	3 month	YTD	1 Year	3 Year	Since Inception
PLTM NAV	-1.41%	-2.70%	-	-	-	-22.30%
PLTM Market Price	-0.54%	-2.56%	-	-	-	-20.66%
Platinum	-1.37%	-2.58%	-14.35%	-11.41%	-	-21.93%

Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. Returns less than one year are not annualized. NAV prices are used to calculate market price performance prior to the date when the Trust first traded on the New York Stock Exchange. Market performance is determined using the bid/ask midpoint at 4:00pm Eastern time, when the NAV is typically calculated. Market performance does not represent the returns you would receive if you traded shares at other times. For the Trust's most recent month end performance, please call 1(844) 476-8747 or visit www.graniteshares.com/etfs.

COMMODITY SECTOR BREAKDOWN:

Physical Platinum 100%

DISCLAIMER

This material must be preceded or accompanied by a prospectus. Please read the prospectus carefully before investing or sending money. To obtain a prospectus visit the link www.graniteshares.com/Documents/49/PLTM-Prospectus.pdf

Shares of the Trust are not insured by the Federal Deposit Insurance Corporation ("FDIC"), may lose value and have no bank guarantee. PLTM is not a mutual fund or any other type of Investment Company within the meaning of the Investment Company Act of 1940, as amended, and is not subject to regulation thereunder.

The Trust is not a commodity pool for purposes of the Commodity Exchange Act of 1936, as amended.

The Trust is recently formed and has a limited history of operations. There can be no assurances that its objective will be met.

Trust shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of Trust shares relates directly to the value of the platinum held by the Trust (less its expenses), and fluctuations in the price of platinum could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the platinum represented by them. Shares of the Trust are bought and sold at market price and not individually redeemed from the Trust. Brokerage commissions will reduce returns.

Market Price: The current price at which shares are bought and sold. Market returns are based upon the last trade price.

NAV: The dollar value of a single share, based on the value of the underlying assets of the Trust minus its liabilities, divided by the number of shares outstanding. Calculated at the end of each business day.

Physical Replication: The Trust owns the underlying assets of the index whether they are stocks, bonds, or in this case, platinum bars. The objective of the Trust is for the value of the Shares to reflect, at any given time, the value of the assets owned by the Trust at that time less the Trust's accrued expenses and liabilities as of that time. The Shares are intended to constitute a simple and cost-effective means of making an investment similar to an investment in platinum. An investment in allocated physical platinum bullion requires expensive and sometimes complicated arrangements in connection with the assay, transportation and warehousing of the metal. Traditionally, such expense and complications have resulted in investments in physical platinum bullion being efficient only in amounts beyond the reach of many investors. The Shares have been designed to remove the obstacles represented by the expense and complications involved in an investment in physical platinum bullion, while at the same time having an intrinsic value that reflects, at any given time, the price of the assets owned by the Trust at such time less the Trust expenses and liabilities. Although the Shares are not the exact equivalent of an investment in platinum, they provide investors with an alternative that allows a level of participation in the platinum market through the securities market.

The Sponsor of the Trust is GraniteShares LLC.

FORESIDE FUND SERVICES, LLC, PROVIDES MARKETING SERVICES TO THE TRUST. GRANITESHARES IS NOT AFFILIATED WITH FORESIDE FUND SERVICES, LLC

Trust RISKS

Investing in the shares involves significant risks, including possible loss of principal. You could lose money on an investment in the Trust. Commodities generally are volatile and are not suitable for all investors. Trusts focusing on a single commodity generally experience greater volatility.

The value of the Shares relates directly to the value of the platinum held by the Trust and fluctuation in the price of platinum could materially adversely affect an investment in the Shares.

The price of platinum has fluctuated widely over the past several years. Several factors may affect the price of platinum, including: Global platinum supply, which is influenced by such factors as production and cost levels in major platinum producing countries such as South Africa. Recycling, autocatalyst demand, industrial demand, jewelry demand and investment demand are also important drivers of platinum supply and demand; Investors' expectation with respect to the rate of inflation; Currency exchange rate; Interest rates; Investment and trading activities of hedge funds and commodity funds; and Global or regional political, economic or financial events and situations.

In addition, investors should be aware that there is no assurance that platinum will maintain its long-term value in terms of purchasing power in the future. In the event that the price of platinum declines, the Sponsor expects the value of an investment in the Shares to decline proportionately.

The amount of platinum represented by each share will decrease over the life of the Trust due to the sales of platinum necessary to pay the Sponsor's Fee and Trust expenses. Without increases in the price of platinum sufficient to compensate for that decrease, the price of the Shares will also decline and you will lose money on your investment in shares.

The Trust is a passive investment vehicle. The price received upon the sale of shares may be less than the value of the platinum represented by them.

The Trust is not a diversified investment, it may be more volatile than other investments.

The Trust may be forced to sell platinum earlier than anticipated if expenses are higher than expected.

Please refer to the prospectus for complete information regarding all risks associated with the Trust.
